Chilton's Import Car Repair Manual, 1986 Chilton Book Company 1985

The Competition Car Data Logging Manual Graham Templeman 2008 At last. A practical handbook on how to choose and operate datalogging equipment and get the full benefit from what it tells you. Aimed at the amateur competitor, it covers hardware and software and takes over where the manufacturers instructions run out. It shows how to understand what the data is telling you and how to use it to go faster. It covers standard information screens and shows you how to create your own charts and tables that will illuminate the performance of both the car, the driver and the team. On the way, it deals with systems management issues, how to get the quick and easy payoffs, and how to benefit in the long term. It explains how sensors work, how to fit them so they survive and to calibrate them. The final chapter is a Field Guide designed to help you run the system, trouble-shoot hardware and software problems and quickly interpret the output of the graphs under pressure during an event.

1275cc A-Series High-Performance Manual Des Hammill 2006-05-15 A completely reworked and much enlarged (by over 60 pages) book based on Des Hammill's much respected earlier work on how to get more power from the A-Series engine. The complete practical guide to modifying the 1275cc A-Series engine for high-performance with reliability, and without wasting money on parts or modifications that don't work. Explains how many original components - sometimes modified - can be used in high-performance applications.

Standard Catalog of Imported Cars, 1946-1990 James M. Flammang 1992 This book provides a wealth of detailed information that collectors, investors, and restorers of imported cars will not find in any other book. This massive volume spans the marques of imported vehicles. The list includes such familiar names as Alfa Romeo, Aston Martin, Bentley, Citroen, Jaguar, Lamborghini, Porsche, Rolls-Royce, Saab, and Volkswagon. Also in these pages, you'll find details on such lesser-known yet no less intriguing marques as Abarth, DAF, Frazer Nash, Humber, Iso, Nardi, Panhard, Peerless, Sabra and Skoda. The book also highlights model changes and corporate histories and provides value information on the most popular models of imported cars.

The Sportscar & Kitcar Suspension & Brakes High-Performance Manual Des Hammill 2008-09-15 How to get the best from sportscars/kit cars with wishbone front suspension, coil springs and telescopic shocks. Includes 'chassis' integrity, geometry, ride height, camber, castor, kpi, springs, shockers, testing & adjustment.

How to Illustrate and Design Concept Cars Adrian Dewey 2011-11-15 The automobile seems to be as popular now as it ever was. Posters

of cars still adorn many a child's bedroom wall, and school exercise books are full of doodles of cars. This book takes those notebook sketches and teaches you how to develop them into the car designs you see in magazines. Using simple to follow step-by-step drawings it guides you from pencil sketch to marker rendering, from doodle to highly visual computer generated artwork. Adrian Dewey has worked on designs as diverse as small sports cars to double decker buses, modified motors to concept Formula 1 cars, using various techniques and styles. In this book, he uses his knowledge of the different styles to guide the reader in creating great artwork and designs of their own. The book shows in detail how to use different materials and how to get the most out of each one, whether it be a great pencil sketch or a photo realistic vector illustration. The book also features an easy to follow index for quick reference on different types of drawing.

Chevrolet Astro and Gmc Safari Mini-Vans Automotive Repair Manual Ken Freund 1993 Astro & GMC Safari Mini-Vans 1985-93 Shop Manual Haynes. 325 pgs., 780 ill.

Datsun/Nissan 280X & 300ZX Brian Long 2018-10-12 The 240Z was a landmark in automotive history. By the time the first generation Z-cars came to an end in 1978, everyone around the world knew the name Datsun. Here is the full story of the ZX series from the 280ZX – introduced as the second generation Z-car in 1978 – through to the 300ZX of 1999. The 240Z and 260Z were pure sports cars, but the 280ZX represented the evolution of the Z-car into a Grand Tourer. This evolution continued through two generations of 300ZX and the Z became a true supercar with state-of-the-art engineering features. This book contains a great deal of new information for enthusiasts in the West, as Japanese models have been covered in detail for the first time. Photographs and other illustrations have been sourced almost exclusively from the factory and therefore illustrate the cars in original detail. Datsun Z, also by Brian Long and Veloce, is a complementary book.
