*The Triumph of Doubt David Michaels 2020 "Opioids. Concussions. Obesity. Climate change. America is a country of everyday crises -- big, long-spanning problems that persist, mostly unregulated, despite their toll on the country's health and vitality. And for every case of government inaction on one of these issues, there is a set of familiar, doubtful refrains: The science is unclear. The data is inconclusive. Regulation is unjustified. It's a slippery slope. Is it? The Triumph of Doubt traces the ascendance of science-for-hire in American life and government, from its origins in the tobacco industry in the 1950s to its current manifestations across government, public policy, and even professional sports. Well-heeled American corporations have long had a financial stake in undermining scientific consensus and manufacturing uncertainty; in The Triumph of Doubt, former Obama and Clinton official David Michaels details how bad science becomes public policy -- and where it's happening today. Amid fraught conversations of "alternative facts" and "truth decay," The Triumph of Doubt wields its unprecedented access to shine a light on the machinations and scope of manipulated science in American society. It is an urgent, revelatory work, one that promises to reorient conversations around science and the public good for the foreseeable future"--Provided by publisher.*

Drawing on accounts of modern and contemporary art, film, literature, fashion and performance, it challenges established assumptions of the cultural products of Asia. Special attention is given to the role of cultural translators or 'long-distance cultural specialists' whose works bridge or traverse different worlds, with the inclusion of essays by three important artists who share personal accounts of their experiences creating and showing artworks that negotiate diverse cultural contexts. The Religious Instruction Of The Negroes In The United States Charles Colcock Jones 2021-07-08 Charles Colcock Jones, Sr. (1804 -1863) was a Presbyterian clergyman, educator, missionary, and planter of Liberty County, Georgia. While in the North, Jones agonized over the morality of owning slaves, but he returned to Liberty County to become a planter and a missionary to slaves. He served as pastor of the First Presbyterian Church of Savannah, Georgia (1831-32), Professor of church history and polity at Columbia Theological Seminary, Columbia, South Carolina, (1835-38), returned to missionary work in 1839, and was again Professor at Columbia Seminary (1847-50). He spent the remainder of his life supervising his three plantations, Arcadia, Montevideo, and Maybank, while continuing his evangelization of slaves. Besides many tracts and papers, Jones published *The Religious Instruction of the Negroes in the United States* (1842) and *a History of the Church of God* (1867). His *Catechism of Scripture Doctrine and Practice* (1837) was translated into Armenian and Chinese. In 1972, literary critic Robert Manson Myers published a huge collection of Jones family letters in *The Children of Pride*, a work of more than 1,800 pages, the book won a National Book Award (1973). In 2005, historian Erskine Clarke published *Dwelling Place: A Plantation Epic* based on an even larger collection of Jones family correspondence, it won a Bancroft Prize (2006). Mr. Jones, the author of this volume, had for years manifested a deep interest in the religious improvement of his colored fellow-men. He was a minister of the gospel, resident in Georgia, and connected ecclesiastically with the Presbyterian denomination. This book contains an historical sketch of the religious instruction of the negroes from 1620 to 1842-treats of the moral and religious condition of the negroes; of the obligations of the church to improve that condition by giving them the gospel-and proposes plans for securing their religious instruction. Mr. Jones weighs well all objections to the course proposed and meets them on Scriptural grounds: so that it must be difficult for a minister of the gospel or a private Christian to read and not be reprov'd. Under the head of the obligations of the church to the negroes, the author speaks out plainly and forcibly, first to the church in slaveholding states on their duties to the slaves, then to Christians in the free states on their duty to afford the gospel to free negroes within their limits. To the former he says: "We cannot cry out against Papists for withholding the Scriptures from the common people, if we withhold the Bible from our servants, and keep them in ignorance of its saving truths, which we certainly do whilst we will not provide ways and means of having it read and explained to them." Appeals, such as Mr. Jones made, to the consciences of Christians in the South, adapted to prepare the way, as rapidly as any other preparatory measures, for the ultimate breaking of all the fetters of bondage and letting the oppressed and captive go free.

*Narrative Development in Adolescence Kate C. McLean 2009-11-11 Monisha Pasupathi and Kate C. McLean Where Have You Been, Where Are You Going? Narrative Identity in Adolescence How can we help youth move from childhood to adulthood in the most effective and positive way possible? This is a question that parents, educators, researchers, and policy makers engage with every day. In this book, we explore the potential power of*

the stories that youth construct as one route for such movement. Our emphasis is on how those stories serve to build a sense of identity for youth and how the kinds of stories youth tell are informed by their broader contexts – from parents and friends to nationalities and history. Identity development, and in particular narrative identity development, concerns the ways in which adolescents must integrate their past and present and articulate and anticipate their futures (Erikson, 1968). Viewed in this way, identity development is not only unique to adolescence (and emergent adulthood), but also intimately linked to childhood and to adulthood. The title for this chapter, borrowed from the Joyce Carol Oates story, highlights the precarious position of adolescence in relation to the construction of identity. In this story, the protagonist, poised between childhood and adulthood, navigates a series of encounters with relatively little awareness of either her childhood past or her potential adult futures. Her choices are risky and her future, at the end, looks dark.

*Fashion Meets Socialism* Gronow Jukka 2018-03-06 The Soviet Union was not renowned for its fashionable clothing. However, after the World War II the Soviet Government opened several parallel organizations of fashion design with fashion houses and ateliers all over the country. The post-war decades witnessed hot debates on destalinization, economic and social reforms and the increasing importance of the public opinion. The cold war and the peaceful competition between the two systems left their marks on clothes fashion. Fashion offers a good insight into Soviet economic planning. Despite increasing opulence, Soviet consumers were not satisfied. Soviet experts on fashion propagated small series of fashionable clothing and the opening of boutiques which never seriously challenged industrial mass production. Using a great variety of unique historical sources the book analyzes the changing economic, social and cultural conditions of Soviet fashion which faced many problems but had real achievements to show too.
