Love Worth Finding (Pack Of 25) Adrian Rogers 1998-11-23 Psychologists have long known that every person has two great longings and inward needs. The first is to be loved, and the second is to love. But when pressures and heartaches come into our lives, many give up any hope of ever finding love. The tragedy is that we often look in the wrong places to fill this deep, deep need and longing. Some substitute lust for love. Others pursue material things or superficial relationships--all in the futile attempt to fill a God-shaped vacuum in the human heart. But there is good news! There is a love worth finding and a love worth sharing. The Bible says, "For God so loved the world, that He gave His only begotten Son, that whosoever believeth in Him should not perish, but have everlasting life" (John 3:16). On the cross of Christ, God's mighty love was revealed and offered unconditionally to all who would be saved. Do you long to know this mighty love? Then I need to ask you the most important question you'll ever be asked: Do you know beyond a shadow of a doubt that God loves you, that your sins are forgiven, and that you are saved and on your way to heaven? The great news is, you can know! Let me share with you how to discover the greatest love worth finding. **Admit Your Sin.** First, you must admit that you are a sinner. The Bible says, "There is none righteous, no, not one" (Romans 3:10). "For all have sinned, and come short of the glory of God" (Romans 3:23). It is our sin that separates us from God and from fulfilling our deepest needs and longings. Sin is an offense against God that carries a serious penalty. According to Romans 6:23, "The wages of sin is death [eternal separation from the love and mercy of God]." **Abandon Your Efforts.** Second, you must abandon any efforts to save yourself. If we could save ourselves, Jesus' death would have been unnecessary! Even "getting religion" cannot get you to heaven. The Bible says it is "not by works of righteousness which we have done, but according to His [God's] mercy He saved us" (Titus 3:5). Salvation is by God's grace, "not of works, lest any man should boast" (Ephesians 2:8-9). Acknowledge Christ's

Payment. What you cannot do for yourself, Jesus Christ has done for you! "But God commendeth His love toward us, in that, while we were yet sinners, Christ died for us" (Romans 5:8). He died on the cross for you, and then rose from the dead to prove that His payment was acceptable to God. But you must acknowledge and believe this fact. "Believe on the Lord Jesus Christ, and thou shalt be saved" (Acts 16:31). Accept Christ as Your Savior. Salvation is God's gift to you. "The gift of God is eternal life through Jesus Christ our Lord" (Romans 6:23). When someone offers you a priceless gift, the wisest thing you can do is accept it! This very moment, you can receive Christ's gift of salvation by sincerely praying this simple prayer from your heart: Dear God, I know that I am a sinner. I know that You love me and want to save me. Jesus, I believe You are the Son of God, who died on the cross to pay for my sins. I believe God raised You from the dead. I now turn from my sin and, by faith, receive You as my personal Lord and Savior. Come into my heart, forgive my sins, and save me, Lord Jesus. In Your name I pray. Amen. Friend, if you have not yet made a decision for Christ, I urge you to receive Him today. You'll be eternally glad to know the love worth finding!

Home for Good Krish Kandiah 2013-03-14 Tying in to a nationwide joint campaign by the Evangelical Alliance and Care for the Family, Krish Kandiah wants us all to take seriously Jesus's call to 'suffer the little children' by engaging with the needs of the many thousands of children up and down the country who are in care and whom the church could and should be helping. Krish and his wife Miriam have adopted and fostered children themselves and their experience - and that of the many others in this book - is very different from the popular myth which suggests social services seek to prevent Christians from getting involved. Krish argues that whatever the state's stance may be, it is a part of our calling as God's church to get involved where it's hardest, and to help these children out of the tough realities they find themselves in. Filled with stories from people who have adopted or were adopted themselves, alongside practical advice on how it all works and the challenges that will come, this book makes a compelling case that the church can and must make a difference in these children's lives, and asks us all to consider our response.

Investigation Of Competition In Digital Markets United States Congress 2020-10-06 In June 2019, the Committee on the Judiciary initiated a bipartisan investigation into the state of competition online, spearheaded by the Subcommittee on Antitrust, Commercial and Administrative Law. As part of a top-to-bottom review of the market, the Subcommittee examined the dominance of Amazon, Apple, Facebook, and Google, and their business practices to determine how their power affects our economy and our democracy. Additionally, the Subcommittee performed a review of existing antitrust laws, competition policies, and current enforcement levels to assess whether they are adequate to address market power and anticompetitive conduct in digital markets. Over the course of our investigation, we collected extensive evidence from these companies as well as from third parties - totaling nearly 1.3 million documents. We held seven hearings to review the effects of market power online - including on the free and diverse press, innovation, and privacy - and a final hearing to examine potential solutions to concerns identified during the investigation and to inform this Report's recommendations. A year after initiating the investigation, we received testimony from the Chief Executive Officers of the investigated companies: Jeff Bezos, Tim Cook, Mark Zuckerberg, and Sundar Pichai. For nearly six hours, we pressed for answers about their business practices, including about evidence concerning the extent to which they have exploited, entrenched, and expanded their power over digital markets in anticompetitive and abusive ways. Their answers were often evasive and non-responsive, raising fresh questions about whether they believe they are beyond the reach of democratic oversight. Although these four corporations differ in important

ways, studying their business practices has revealed common problems

52 Funeral Sermons Barry L. Davis 2013-05-05 For most of us, one of the most rewarding, yet difficult tasks, is preparing messages to preach and teach. We are honored by God to stand before our congregation each week, and we want to give them the very best, but with the press of the many demands of ministry, sometimes that is difficult to do. And if you're like me, you prefer writing your own sermons because you have a special connection with your congregation that is hard to reach through a message someone else has written. In other words, no one knows your people like you do! Our new Pulpit Outline Series gives you a starting point - a sermon title, a deductive sermon outline; and a relevant illustration you can use however you like. In this edition, rather than an outline, we have given you full manuscript messages that can be edited to suit your purposes. We invite you to make these messages your own, because only you know the people God has called you to preach to. And we are so honored that you've invested in this unique third volume in the Pulpit Outline series - 52 Funeral Sermons. We have put together the most tasteful, relevant, and Biblical messages possible. May God Bless You as You Share His Word!

Captive Audience Susan Crawford 2013-01-08 Ten years ago, the United States stood at the forefront of the Internet revolution. With some of the fastest speeds and lowest prices in the world for high-speed Internet access, the nation was poised to be the global leader in the new knowledge-based economy. Today that global competitive advantage has all but vanished because of a series of government decisions and resulting monopolies that have allowed dozens of countries, including Japan and South Korea, to pass us in both speed and price of broadband. This steady slide backward not only deprives consumers of vital services needed in a competitive employment and business market—it also threatens the economic future of the nation. This important book by leading telecommunications policy expert Susan

Crawford explores why Americans are now paying much more but getting much less when it comes to high-speed Internet access. Using the 2011 merger between Comcast and NBC Universal as a lens, Crawford examines how we have created the biggest monopoly since the breakup of Standard Oil a century ago. In the clearest terms, this book explores how telecommunications monopolies have affected the daily lives of consumers and America's global economic standing.

Before Sunrise & Before Sunset Richard Linklater 2008-11-19 In one volume, the screenplays to two contemporary classics, directed by Richard Linklater, and starring Ethan Hawke and Julie Delpy, about the immediate and life-altering attraction between two strangers. Nearly a decade later, Jesse, now a novelist on a publicity tour, sees Celine in a bookstore in Paris. Again their time is short, and they spend it reestablishing the connection they experienced on their first meeting. Romantic, poignant, understated, and often profound, these two screenplays are sure to become classics in their own right.

The Times AS HEARD ON BBC RADIO 4 'I'll be back soon, my love. Tonight, I hope.' The last Eve saw of her mother was a wave from the basket of a rising balloon. A wilful, lonely orphan in the house of her erratic artist guardian, Eve struggles to retain the image of her missing mother and the father she never knew. In a London beset by pageantry, incipient riot and the fear of Napoleonic invasion, Eve must grow into a young woman with no one to guide her through its perils. Far away, in a Norfolk fishing village, the Rev Snead preaches hellfire and damnation to his impoverished parishioners and oppressed wife. Snead illustrates his sermons with the example of a mute woman pulled from the sea, over whom he keeps a very close watch indeed.

Television Is the New Television Michael Wolff 2015-06-23 "The closer the new media future gets, the further victory appears." --Michael Wolff This is a book about what happens when the smartest people in

the room decide something is inevitable, and yet it doesn't come to pass. What happens when omens have been misread, tea leaves misinterpreted, gurus embarrassed? Twenty years after the Netscape IPO, ten years after the birth of YouTube, and five years after the first iPad, the Internet has still not destroyed the giants of old media. CBS, News Corp, Disney, Comcast, Time Warner, and their peers are still alive, kicking, and making big bucks. The New York Times still earns far more from print ads than from digital ads. Super Bowl commercials are more valuable than ever. Banner ad space on Yahoo can be bought for a relative pittance. Sure, the darlings of new media—Buzzfeed, HuffPo, Politico, and many more—keep attracting ever more traffic, in some cases truly phenomenal traffic. But as Michael Wolff shows in this fascinating and sure-to-be-controversial book, their buzz and venture financing rounds are based on assumptions that were wrong from the start, and become more wrong with each passing year. The consequences of this folly are far reaching for anyone who cares about good journalism, enjoys bingeing on Netflix, works with advertising, or plans to have a role in the future of the Internet. Wolff set out to write an honest guide to the changing media landscape, based on a clear-eyed evaluation of who really makes money and how. His conclusion: The Web, social media, and various mobile platforms are not the new television. Television is the new television. We all know that Google and Facebook are thriving by selling online ads—but they're aggregators, not content creators. As major brands conclude that banner ads next to text basically don't work, the value of digital traffic to content-driven sites has plummeted, while the value of a television audience continues to rise. Even if millions now watch television on their phones via their Netflix, Hulu, and HBO GO apps, that doesn't change the balance of power. Television by any other name is the game everybody is trying to win—including outlets like The Wall Street Journal that never used to play the game at all. Drawing on his unparalleled sources in corner offices from Rockefeller Center to Beverly Hills, Wolff tells us what's really going on, which emperors have no clothes, and which supposed geniuses are due for a major fall. Whether he riles you or makes you cheer, his book will change how you think about media, technology, and the way we live now.

The Twenty-First-Century Media Industry John Allen Hendricks 2010-06-22 The Twenty-First-Century Media Industry: Economic and Managerial Implications in the Age of New Media examines the role that new media technologies are having on the traditional media industry from a media management perspective. In order to stay relevant, traditional media managers and practitioners are adapting to these consumer demands and expectations by developing new business models and new business philosophies to stay competitive. The contributors to this volume explore the business strategies being implemented by some media industries such as newspapers and the recording industry who are struggling to not only remain competitive and profitable, but also to survive. The Twenty-First-Century Media Industry provides an intriguing examination of how traditional media industries are adapting to new media technologies and evolving in the twenty-first century.
