A Roadmap to Reducing Child Poverty National Academies of Sciences, Engineering, and Medicine 2019-09-16 The strengths and abilities children develop from infancy through adolescence are crucial for their physical, emotional, and cognitive growth, which in turn help them to achieve success in school and to become responsible, economically self-sufficient, and healthy adults. Capable, responsible, and healthy adults are clearly the foundation of a well-functioning and prosperous society, yet America's future is not as secure as it could be because millions of American children live in families with incomes below the poverty line. A wealth of evidence suggests that a lack of adequate economic resources for families with children compromises these children's ability to grow and achieve adult success, hurting them and the broader society. A Roadmap to Reducing Child Poverty reviews the research on linkages between child poverty and child well-being, and analyzes the poverty-reducing effects of major assistance programs directed at children and families. This report also provides policy and program recommendations for reducing the number of children living in poverty in the United States by half within 10 years.

Departure William Chapman 2011-08 The complete Green on Green Trilogy of novels is a complex saga of the Viet Nam war era, from the POV of a drafted infantry soldier, Private Michael Landers, very much against the war. By subtle revelations, it melds in with a mythological saga of a tribe of Montagnard people in the Vietnamese Mountains who have never heard of Americans or even Vietnamese...on purpose. A boy and an old man with wizardly powers have been drafted into a war between their gods. In *Departure*, Landers is due to be shipped out from the Oakland Army Departure Depot, where thousands of soldiers per week are sent to Viet Nam. Only he shows up up on LSD, stating that the war is against all American principles; that he won't go. This becomes a 2-month stand-off between him and the military bureaucracy. Begins with Landers surfing and partying with old friends in San Diego's offbeat Ocean Beach. Soon moves to the San Francisco Bay Area, where, when off the military bases, he wanders the streets of San Francisco with a pair of Viet Nam infantry vets, to delve into this extreme version of "Drugs, sex and rock and roll" versus "the Establishment." He uncovers shady government provocateurs leading the U.C. Berkeley anti-war demonstrations. Closely based on personal experience.

Joe, Miles and Harry are growing up on the remote south coast of Tasmania. The brothers' lives are shaped by their father's moods - like the ocean he fishes, he is wild and unpredictable. He is a bitter man, with a devastating secret. Miles does his best to watch out for Harry, the youngest, but he can't be there all the time. Often alone, Harry finds joy in the small treasures he discovers, in shark eggs and cuttlefish bones. In a kelpie pup, a mug of hot chocolate, and a secret friendship with a mysterious neighbour. But sometimes small treasures, or a brother's love are not enough.
