Basic Statistics for the Behavioral Sciences Robert M. Thorndike 2001 Meant for a first course in Statistics offered to students in Education, Psychology, and other Behavioral Sciences. Written by one of the most recognizable names in the discipline, Basic Statistic for the Behavioral Sciences discusses statistics in the context of educational and psychological research, making a typically abstract subject more meaningful to readers. The text helps readers develop a conceptual understanding of statistics, above and beyond computation, by providing numerous real-life examples and ample opportunities for students to check, review, and apply their learning..

Calculus Gilbert Strang 2017-09-14 Gilbert Strang's clear, direct style and detailed, intensive explanations make this textbook ideal as both a course companion and for self-study. Single variable and multivariable calculus are covered in depth. Key examples of the application of calculus to areas such as physics, engineering and economics are included in order to enhance students' understanding. New to the third edition is a chapter on the 'Highlights of calculus', which accompanies the popular video lectures by the author on MIT's OpenCourseWare. These can be accessed from math.mit.edu/~gs.
