psychosis during pregnancy or in the first year after childbirth. Suicide is the second leading cause of maternal death, after cardiovascular disease. Mental health problems not only affect the health of mothers but can also have long-standing effects on children's emotional, social and cognitive development.

What Is Body Positivity? The Path from Shame to Pride - JSTOR

aim in this paper is to offer a general account of body positivity. I argue that body positivity should be understood as the transition from limit-ing body shame to proper body pride. I adopt a pluralistic approach to body positivity, incorporating the idea that we should not only expand aesthetic standards, but also celebrate such aspects of embodiment as our capacity for bodily ...
